Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Tuesday 13 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
The settled weather will continue with cold frosty nights.

This Evening and Tonight:
Any showers soon easing, with cloud breaks developing. This will lead to another cold night, with a widespread frost, along with the odd fog patch potentially forming in prone spots. Minimum temperature -2 deg C (28 deg F).

Wednesday:
Any early mist or fog patches will clear quickly. Variable cloud and some sunny spells throughout. Most parts staying dry, although a few showers are possible in places. Maximum temperature 10 deg C (50 deg F).

Outlook for Thursday to Saturday:
Little change through this period, with sunny spells and temperatures recovering towards normal after cold, and frosty starts. Largely dry. Perhaps a little cloudier later Saturday, with a strengthening breeze.
